Add a touch of class and elegance to any washroom interior with the latest and most contemporary cubicle design.

By combining the integrated system of specially designed stainless steel headrails and fixing systems with the 5+5mm laminated safety glass, the iCubix toilet partition and cubicle is not only robust, it also creates an airy ambience in the washroom without compromising privacy. The surface is nonporous therefore making it hygienic and easy to clean, and if exposed to heat or flame, does not produce any volatile organic compounds (VOCs).

An ideal concept for architects and interior designers, the iCubix's stunning look makes it the perfect choice for exclusive hotels, health clubs, select restaurants and boutique establishments.

iCubix meets the requirements of Australian Standards AS/NZS 2208:1996 - Safety Glazing Materials in Buildings.
